

Maintenance Choice®

Save with 90-day supplies

Fill your medications in 90-day supplies at a select participating pharmacy.

Make sure your medication is covered

Your plan offers Maintenance Choice, a program which gives you the option to pick up or get delivery of 90-day supplies of the medication you take regularly (for things like diabetes, high blood pressure, asthma, etc.) at select participating pharmacies.

The medications you take regularly will need to be filled in 90-day supplies at a select participating pharmacy. If you continue to fill in 30-day supplies, the fills will not be covered, and you will be

required to pay the entire cost. See below for more details.

If you want to keep filling your prescriptions at your current pharmacy in 30-day supplies without paying the full cost, you can call the number on your member ID card to opt out once your new plan starts. If you opt out during the plan year, you will need to opt out again when your plan benefits renew.

Here's what you need to do:

1. For pickup at the pharmacy, use the Pharmacy Locator Tool to find a participating pharmacy.

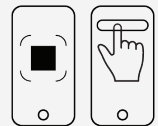

2. For Rx delivery by mail, ask your prescriber to send a new 90-day prescription to that pharmacy for pickup or delivery.

Please note: You can still fill the prescriptions you take for a limited time (such as antibiotics) at any participating pharmacy in your plan's network.

To find a participating pharmacy, visit [Caremark.com/PharmacyLocator](https://www.caremark.com/PharmacyLocator) or scan the code.
